

**Preliminary Program for
Mini-symposium
in honor of
John C. Huffman
on the occasion of his retirement**

25th April 2007

**Mini Symposium in honor of
John C. Huffman**

Chair, Kenneth G. Caulton

Michael Hursthouse

Chemistry Department and National Crystallography Service,
University of Southampton, UK

Data, data everywhere, nor any time to think –
Managing and using crystal structure data in a
high-throughput chemical crystallography
environment

Allen Siedle

3M, Corporate Research, Minneapolis, MN

Metal Nanoparticle Catalysts

Alfred P. Sattelberger

Associate Laboratory Director, Physical Sciences,
Argonne National Laboratories, Chicago, IL

Exploring Inorganic Chemistry with John Huffman
a Personal Reflection

Christopher S. Peebles

Associate Vice President Research & Academic Computing,
Dean for Information Technology, Bloomington, IN

Long Ago, When Faculty Seriously Debated the
Merits of Various Operating Systems:
John Huffman, ACPC, and the Development of
Information Technology as a Critical Element in
Research at Indiana University

**Reception in the University Club
Presidents' Room (IMU)**
